- From Japanese Air Arms 1952-1984 by Akira Watanabe:-

The first few L-19A's were delivered to Hoantai in June 1954. Weeks later Hoantai became JGSDF and subsequent deliveries totalled 107 aircraft until 31Mar55, which were serialled 11001 to 11107. Additionally Fuji built 14 updated machines designated L-19E-1 and serialled 11201 to 11214 in 1957-58, which were followed in 1959-60 by eight L-19E-2 instrument trainers (initially painted orange overall) serialled 11361 to 11368. Most of the L-19's had been retired from service during 1977-81 and replaced by OH-6J/D helicopters. Standard colour scheme was olive drab overall.

- Most, if not all, are likely to be ex-Korean;
- It seems likely that only 104 L-19A (not 107) were delivered
